<sup>(2)</sup> U.S. statistics from USDA; Canadian statistics from Statistics Canada. European Union statistics from Agricultural Statistical Yearbook.

\* The 15 countries included in the European Union statistics (agricultural area): Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden and United Kingdom. For the years that information is not available for a country, the last reported information was assumed for that year.

<sup>(3)</sup> Source: Conservation Technology Information Center. Based on over 30% crop residue cover after planting.

<sup>(4)</sup> No-till: soil is left undisturbed from harvest to planting except for nutrient injection.

<sup>(5)</sup> Ridge-till: residue is left on the surface between ridges.

<sup>(6)</sup> Mulch-till: full-width tillage with the soil disturbed prior to planting.
